# Trunk Tales...

***“An interactive storytelling show designed to unleash the imagination of children from 4 years +...”***  
*(and those of their adults too!)*

*“The purpose of a storyteller is not to tell you how to think, but to give you questions to think upon.” - Brandon Sanderson*

*A Trunk is a box for belongings, belongings that have travelled far and wide... Especially when it belongs to this particular lady...*

*Join her to share in tales of boastful toads; magical fish and fearsome beasts of the wild woods. Using puppetry and the contents of her magical trunk she will create Arabic seas; epic mountains; fields of turnips and the tallest trees.*

*The children are invited into the performance by creating waves, helping to find a suitor for the mouse bride and even acting out a character or two from the stories...*
