

# WAVE

By Gill Brigg

# WAVE!

## Welcome to Wave...

Here you can read lots of information about Wave and lots of pictures to help get ready for our visit.

Here you can see the actors getting the set ready for the story.

When you go into the room to see Wave it will be dark, but inside the pod it will be colourfully lit. This is where Wave takes place.

You will be met by a musician, named Matt who will play music and show you the way to the pod (small theatre)

There will be actors inside the pod when you arrive. Once you are inside the performers will sing a song and you will hear your name sung to you.

# What's Inside the Pod?

The pod changes to look like the seaside and a workshop. There is plenty of space and chairs to sit on. There will be music playing and lots of interesting things to look at and explore.

Here is a picture of Dad's workshop. Dad is a weather scientist and this is where he does experiments and checks the weather.

Here is Miranda at the beach enjoying the view

Here is Dad at the beach, playing with sand.

You'll be able to explore the workshop and try out some weather experiments. The beach is where they fish and find interesting objects...

# The Actors

Here are the actors and the characters they play in Wave.

During the show the actors might talk to you and encourage you to touch and explore the different things in the pod.

If you want to join in then you can.

If you don't want to join in then you don't have to.

This is Phoebe.  
Phoebe plays Miranda in Wave.

This is James.  
James plays Dad in Wave.

This is Matt.  
Matt plays Bird in Wave.  
Matt also plays the accordion.

This is Ali  
Ali is the Stage Manager  
and Facilitator in Wave.

# The Story

Wave is the story of a girl and her Dad who live on an island together.

Her Dad is a scientist. He measures the weather.

The girl, whose name is Miranda, wants to leave the Island and live with her boyfriend.

This is difficult for Dad.

Miranda needs to persuade him to let her go.

This is the story we will be exploring.
